

Explore Diebold's stand-alone lobby ATM and discover the most functionality you can find in a footprint of this size

Increased Functionality

Modular construction allows you to add additional features and functionalities quickly and cost effectively.

Enhanced Design

Contemporary, sleek design incorporates a branding panel prominently positioned on the fascia. Use this area to brand your financial institution or market your products and services for increased revenue.

Open System Software Support

Opteva™ terminals are powered by Agilis™, Diebold's high-performance software, which interfaces with a variety of multiple-vendor products to decrease your need for backend support.

Reliability

With large-capacity consumables and intelligent modules that forecast predictive maintenance needs, you can count on maximum availability for each machine.

Installation Flexibility

Make efficient use of valuable floor space with either front- or rear-load configurations.

Enhanced Security Features

Reduce risk exposure with enhanced automated teller machine (ATM) modules incorporating the latest in fraud-preventive mechanisms.

Simplified Service

Lower ongoing operating costs with our intuitive graphical interface that simplifies maintenance functions and makes it easy to train new branch personnel.

DIEBOLD OPTEVA™ 720
Advanced-function Lobby ATM

Opteva 720 Features

Build your self-service delivery channel upon the power of Opteva hardware, Agilis software and Diebold Premier Services™. Together, they provide everything you need today, yet enable you to add new features and functions with unparalleled ease anytime tomorrow. Turn to Diebold for the complete self-service solution: hardware, software, and total services and support. Make it simple. Make it Diebold, the one company that can maximize the return on your self-service investment.

Architecture:

Ergonomically designed fascia meets accessibility standards

Minimized ATM footprint offers the most functionality for the footprint size

Installation with vestibule collar can be retrofitted to fit into existing interior through-the-wall ATM openings

Display Options:

15.1-inch consumer LCD display delivers attention-getting graphics to increase advertising and cross-selling impact

Touch-screen options with or without function keys

Enhanced Operator Interface (available on rear-load option only):

10.4-inch color LCD rear monitor with available touch-screen capability provides

analysis of the ATM as well as a variety of diagnostics and other service benefits

Adjustable alphanumeric keyboard and integrated pointing device

Enhanced Security:

Every module was designed with security in mind

Fraud-resistant dispenser and card reader, consumer awareness mirrors, encrypting PIN pad, duress alarm, universal camera mounts, available ink dye system and much more

Deposit Automation Options:

Envelope depositor with integrated dispenser provides one entry point for both presenting and receiving envelopes

Intelligent Depository Module™ accepts envelope-free checks for direct deposit verification and credit

Bulk note acceptor allows up to 100 note bundles to be deposited for automatic authentication and credit to the consumer's account

Advanced Function Dispenser (AFD) Options:

Two to five multimedia cassettes for increased throughput and efficiencies

AFD utilizing proven friction pick technology

Divert cassette with separate retract and divert compartments

Printer Options:

The industry's first two-color graphical thermal 80 mm receipt printer and A4 or 8.5-inch wide statement printer enable high-resolution graphics for easy reading and marketing opportunities
